SUSPICIOUS POSITION AT STUDY

The child's attitude at study indicates whether he is putting forth unusual exertion or suffering from eye strain. The slightest indication of abnormal demands on the nerve centers should be observed by teachers and parents.

Nervous exhaustion and progress in study seldom go together in the same child.

Our special methods of analysis go to the bottom of eye strain difficulties and the consequent disturbance of the memory centers.

Deafness Cannot Be Cured
by special applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Dr. J. C. Cheney's Catarrh Remedy for Circulation, free. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
